

WELCOMING BACK US AND EU TRAVELLERS TO ENGLAND

- From August 2nd, EU and US residents arriving from an 'amber' list destination (including the US, Italy and Germany) to England will no longer need to self-isolate if they have been fully vaccinated with vaccines authorised by the EMA in Europe and FDA in the USA.
- Travellers arriving from the US must provide proof of US residency.
- Travellers must have been fully vaccinated for at least 14 days and will no longer need to take a 'day 8' Covid-19 arrival test. A 'day 2' arrivals test is still required.
- Passengers from all countries must still complete a passenger locator form and a pre-departure test within 72 hours of their scheduled departure time.
- Our flexible booking policy ('Book with confidence' & Flexibility for existing bookings) remains in place should a passenger need to change their travel dates, destination or cancel without any additional fees.
- Customers can check our Sherpa tool to find latest country entry requirements and restrictions for their journey.
